

# FE126E

## Unique Back Loaded Horn + Bass Reflex Hybrid Enclosure

unit:mm / 15mm thick

- Shown is an example of a FE126E back loaded horn + bass reflex hybrid enclosure.
- Horn frequency is tuned at 100Hz and bass reflex 'Fb' at 55Hz.
- Employing the bass reflex port in the back cavity, this setting realizes the extended low frequency while the dip with the characteristic of back loaded horn is reduced.
