

FT207D

Recommended 2 Way Bass Reflex Type Enclosure

- This is an example enclosure for FT207D and FW137 woofer combination.
- Taking the FT207D's frame shape advantage, the woofers are put in the closest position.
- Internal volume is 20 liters tuned to approximately 51Hz (Fb).
- All units are equipped with the shielded type magnetic circuit, this system can be used as the AV center speaker near a TV set or AV monitor.
